

**ASX Release**

6 June 2012

**CERTIFICATE OF ELIGIBILITY FOR COAL-FIRED GENERATION ASSISTANCE**

Redbank Energy Limited (ASX:AEJ) advises that it has today received a Certificate of Eligibility for Coal-Fired Generation Assistance from the Clean Energy Regulator in respect of the Redbank Power Station.

This means that the Redbank Power Station is eligible to receive free carbon units to be issued in accordance with the Clean Energy Act 2011 (Cth).

The free carbon units associated with the Certificate of Eligibility will be issued from September 2013, subject to the Redbank Power Station meeting various legislative requirements such as power system reliability tests and the submission of a Clean Energy Investment Plan to the Government.
