## ASX Release

10 September 2010

### RESPONSE TO PRESS SPECULATION

In response to recent press speculation regarding a deleveraging transaction, Alinta Energy (ASX:AEJ) advises that as disclosed on 26 August 2010, the process is well advanced with a range of different options being progressed including an equity capital markets solution, and whole of business and individual asset sales to trade buyers with final bids due in September 2010.

Concurrently the Group continues to work with its lenders on other deleveraging options. Once the trade bids have been received and considered and following discussions with the lending group, the Directors expect to update the market.
